MICHAEL D. GOLDFARB
CHIEF OF POLICE

DANIEL M. GUTHRIE
CAPTAIN

LIEUTENANTS

KENNETH S. KLEINMAN

WILLIAM P. LUCIA III

THERESA E. HEALY

At a time when the methods of policing nationally and the relationships between police and the people they serve are coming into question; the Eatontown Police Department continues to be a leader in community based policing and customer service. It is our goal to ensure that each call for service no matter how minor, is completed to the best of our ability. It is also imperative that each person with whom we come into contact with is treated with respect and dignity. It is because of these factors that we continue to have an outstanding relationship with all of our residents, business owners, and visitors.

While community service and customer satisfaction remain our highest priority, we continue to aggressively enforce criminal and motor vehicle laws within our jurisdiction. Reported crime was down in 2015 in the borough, which includes both major and minor incidents. Although we responded to well over 20,000 calls for police service during the year, we were able to pro-actively patrol our neighborhoods, schools, parks, and shopping areas, which is a key component in the reduction of crime.

Although we continue to make every effort to make our roads safer, we experienced over 1,000 traffic accidents again this past year. We had hoped that between the aggressive enforcement, some updates and improvements of major intersections, and targeted patrols and grant programs that we could significantly reduce this number. Inattentive driving and use of handheld devices for calls and texting have contributed to many of these crashes. We will continue to educate the motoring public and enforce these laws and also work with State and County traffic authorities with the goal of reducing these numbers.

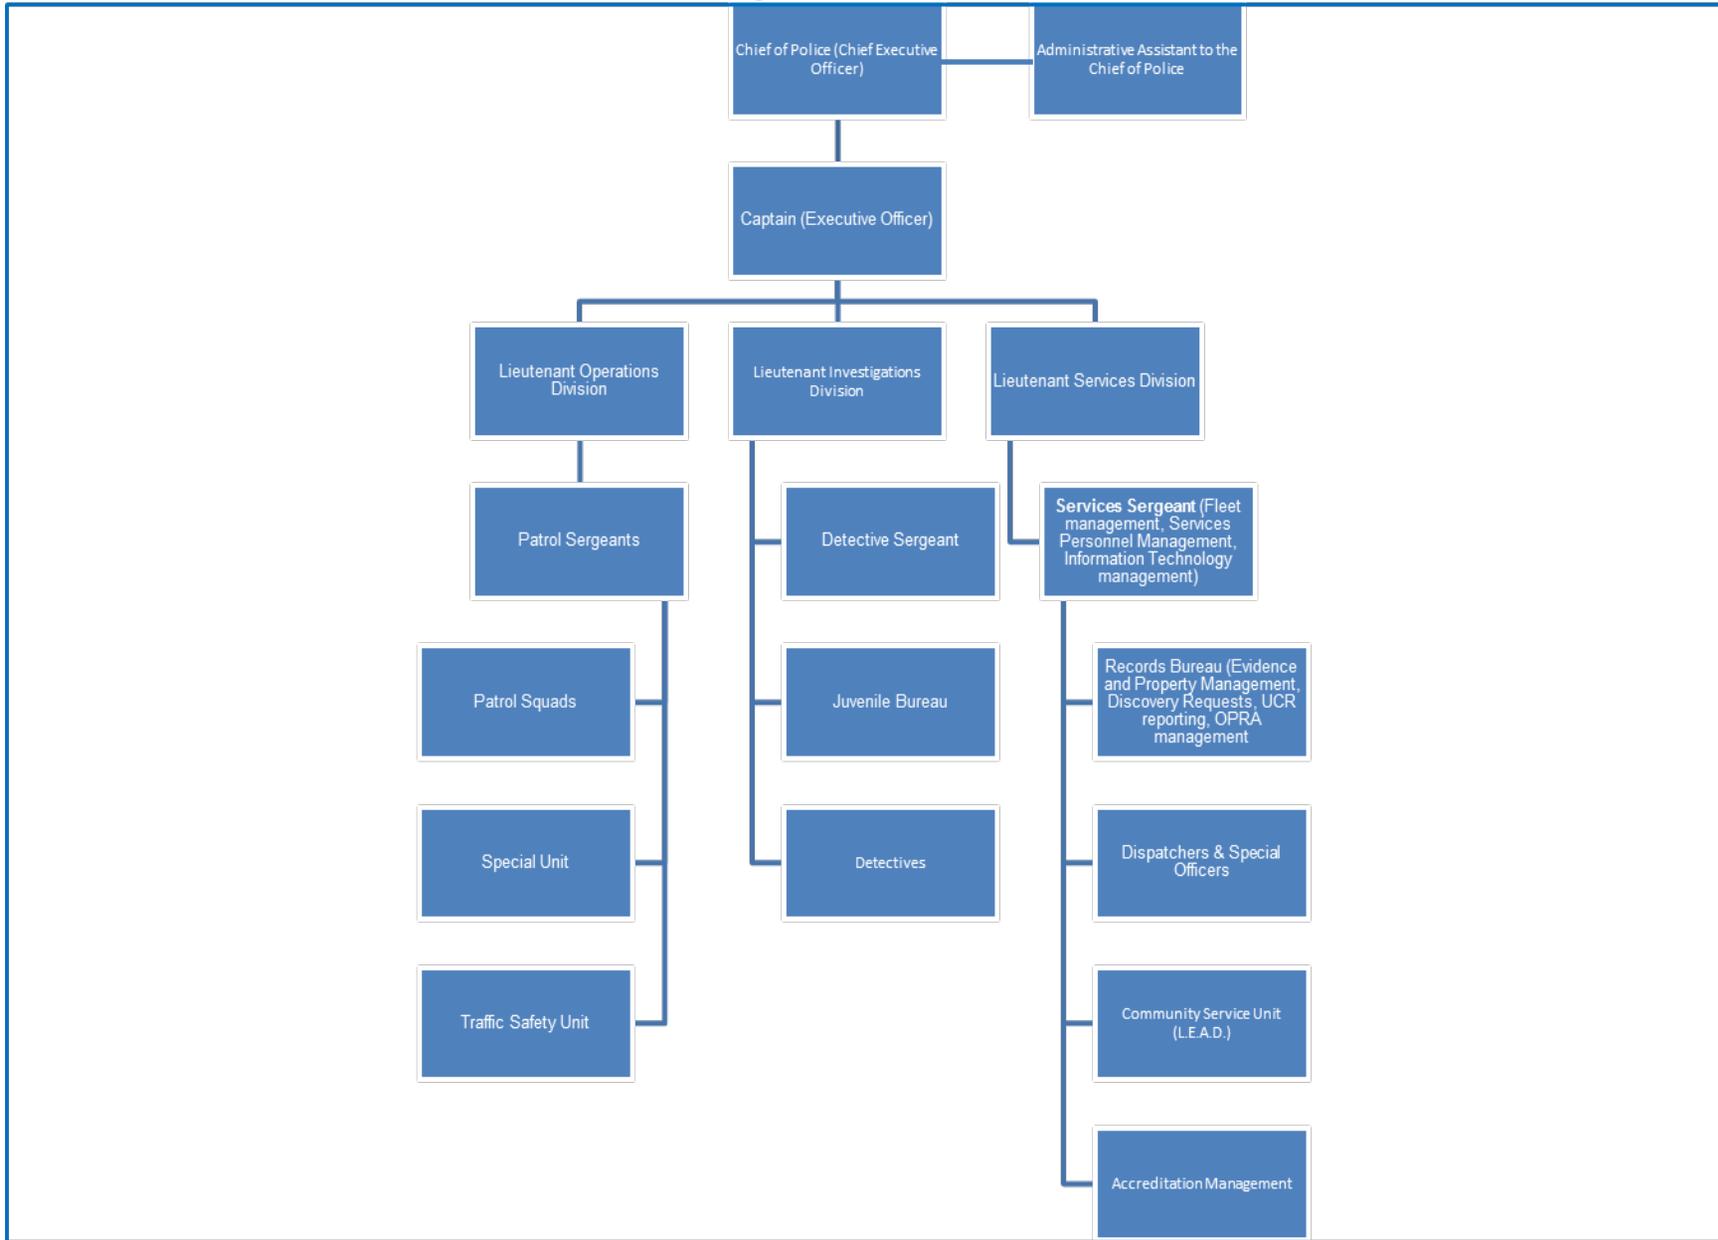

Our officers are second to none in their involvement with the community. The police department members volunteer their time in our schools, sports leagues, senior centers, and with programs benefiting the less-fortunate and handicapped citizens in town. They participate in these events because they realize that they are a part of a truly special town and police department where we all work together to make Eatontown a special place to live and work.

We will continue to strive to be the best police department in the State of New Jersey in the coming year(s). This will be accomplished by working together with our elected officials and community to meet the needs of those we serve.

We are proud to be Eatontown Police Officers and will serve this great community to the best of our abilities.

Respectfully,
Michael D. Goldfarb
Chief of Police

Organizational Chart 2015

It is the mission of the Eatontown Police Department to safeguard the lives and property of the people we serve, to reduce the fear and incidence of crime, and to enhance public safety while working in partnership with the community. Our mandate is to maintain public confidence by serving with honor and integrity.

Lt. Kenneth Kleinman, Lt. Theresa Healy, Chief Michael Goldfarb, Capt. Daniel Guthrie, Lt. William Lucia

Department Overview

CAPTAIN DANIEL GUTHRIE

The Captain of Police has the responsibility for direction, control and supervision of all the department's divisions and assumes command of the department in the absence of the Chief of Police. The Captain is the Internal Affairs Officer, Personnel Officer and the Budgeting & Purchasing Officer. He is responsible for the management of the fleet, the cellblock and is the liaison to the Office of Emergency Management. The Captain is the department's executive officer; he reviews and approves policy in addition to completing other duties as assigned by the Chief of Police.

The **Operations Division** is responsible for the following police functions within the Division.

- Patrol Bureau - The Patrol Bureau is responsible for the department's field operations, including preventive patrol, response to calls for service, preliminary investigations, traffic control, traffic enforcement and accident investigations. It consists of four primary squads to provide 24/7 coverage. Some officers are also assigned additional specialized responsibilities as traffic and crash investigators.
- Traffic Safety – The Traffic Safety Unit is responsible for the investigation, analysis and prevention of motor vehicle accidents. The Traffic Safety Unit is the primary investigative unit for all serious and fatal motor vehicle accidents. The Traffic Safety Officer is also responsible for the impound facility, coordinating road construction with contractors, writing grants and conducting auctions.

The **Investigations Division** is responsible for the following functions within the Division.

- Detective Bureau - The Detective Bureau is responsible for the department's follow-up investigations of reported crimes, specialized investigations of drug and street crimes, crime prevention activities, evidence collection and identification, crime-scene investigation, and victim assistance/juvenile diversion functions.

The **Services Division** is responsible for the following police functions within the Division.

- Accreditation - Reports to the Chief of Police and is responsible for obtaining documentation for our in-service training and managing the accreditation process.
- Information Technology - Responsible for dispatching calls for service, records management, radio and telephone systems and computer network operations. The Services Commander is our NCIC/SCIC Terminal Agency Coordinator.
- Records Bureau – Responsible for the maintenance, dissemination, retention, and disposal of offense, incident, and traffic crash reports, traffic citations and parking tickets, as well as for data entry, research of police records, and assistance to the public at the lobby counter. Records Clerks report directly to the Special Unit Sergeant, answerable to the Services Commander.
- Communications – Responsible for receiving and dispatching calls for police, fire and EMS service, and for receiving and properly referring or handling inquiries from citizens and other agencies.
- Special Officers – The Services Division is responsible for the training, scheduling and utilization of Special Law Enforcement Officers.
- Community Service Unit - Responsible for interacting with the citizens of Eatontown through various programs such as: Law Enforcement Against Drugs (L.E.A.D.), crime prevention, public education and compliance with our alarm ordinance.
- Evidence Storage – Handling of evidence and property as relative to case management.
- OPRA – Request for records through the Open Public Records Act

Personnel Officer

The Eatontown Police Department is comparable to the best police departments in the nation, exceeding the standards set by the accrediting agencies including CALEA and NJSACOP. To become a special officer applicants are required to have an Associate's Degree from an accredited college or university, patrolman are required to have a Bachelor's Degree and the captain and chief's positions require a Master's Degree. All of our police officers hired in the last twenty plus years have had previous police experience, some as full time police officers and others as special officers. Our police officers continue to raise the bar themselves by taking advantage of online college classes and of Fairleigh Dickinson University's, Eatontown location. One-third of our officers have completed a Master's Degree Program and another one-third are pursuing a Master's Degree. Our officers are continually selected to attend the most prestigious schools in modern policing, including; the FBI National Academy, North Western University's - School of Police Staff and Command, Rutgers University's - Certified Public Manager Program, the Chiefs of Police Command & Leadership school formerly known as West Point Command & Leadership. Most of our officers have chosen to pursue an advanced degree in administrative studies and our variety amongst undergraduate degrees makes us incredibly diversified. It gives us the ability to view and resolve problems from different approaches. Undergraduate studies range from criminal justice, political science, public management, oceanography, history, advertisement, mathematics, business, psychology, human services, accounting, education and sociology.

Capt. Cleary, Lt. Tyler and Chief Goldfarb

The Eatontown Police Department had several personnel changes; Capt. John Cleary retired following 34 years of service, Det. Lt. Lawrence Tyler retired following 26 years of service. Bernard Silverstein resigned pending retirement after being seriously injured while on duty during a motor vehicle accident.

- Lt. Daniel Guthrie was promoted to the rank of Captain. He is a graduate of Fairleigh Dickinson University with a Bachelor's Degree in Public Management and a Master's Degree in Administrative Sciences; in addition Capt. Guthrie is a graduate of the FBI National Academy. He earned a certificate in leadership from the University of Virginia.
- Sgt. William Lucia was promoted to the rank of Lieutenant. He is a graduate of Fairleigh Dickinson University with a Bachelor's Degree in Public Management and a Master's Degree in Administrative Sciences. In addition, Lt. Lucia holds a certificate in Public Management from Rutgers University.

Sgt. Amodio and Lt. Healy

- Det. Sgt. Theresa Healy was promoted to the rank of Lieutenant. She is a graduate of Thomas Edison University with a Bachelor's Degree in Human Services and Fairleigh Dickinson University with a Master's Degree in Administrative Sciences. In addition Det. Sgt. Healy attended Penn State University's Public Information Officers Program.
- Det. Antonio Amodio was promoted to the rank of Sergeant. He graduated from West Virginia University with a Bachelor's Degree in Advertisement and Fairleigh Dickinson University with a Master's Degree in Administrative Science. Sgt. Amodio is our lead firearms instructor and a member of the Monmouth County Emergency Response Team.

Det. Drew Clancy, Sgt. Bryan Mulholland, Det. Jason Cardamoni

- Det. Bryan Mulholland was promoted to the rank of Sergeant. He graduated from The College of New Jersey with a Bachelor's Degree in History and Fairleigh Dickinson University with a Master's Degree in Administrative Science. Sgt. Mulholland was a member of the Monmouth County Emergency Response Team and takes a special interest in community activities including the Special Olympics.
- Ptl. Drew Clancy was reassigned to the Detective Bureau. Det. Clancy graduated from the University of Scranton with a Bachelor's Degree in Criminal Justice and Fairleigh Dickinson University with a Master's Degree in Administrative Science. Det. Clancy is a certified firearms instructor.
- Ptl. Jason Cardamoni was reassigned to the Detective Bureau. Det. Cardamoni graduated from Monmouth University with a Bachelor's Degree in Criminal Justice. He is currently pursuing a Master's Degree and is a member of the Monmouth County Rapid Deployment Force and our liaison to the Domestic Violence Response Team.

- Special Officer Edward Kirschenbaum was promoted to the rank of patrolman. Ptl. Kirschenbaum graduated from Montclair State University with a Bachelor's Degree in Justice Studies. He was previously employed by the Belmar Police Department as a special officer.

- Special Officer Andrew Auerbach was promoted to the rank of patrolman. Ptl. Auerbach graduated from Northeastern University with a Bachelor's Degree in Police Studies and is currently enrolled at the University of Cincinnati. Ptl. Auerbach has previous experience as a special officer and dispatcher with the Ocean Twp. Police Department.

- Special Officer Stephen Kircher graduated from Moravian College with a Bachelor's Degree in Accounting. He is a graduate of the Monmouth County Police Academy with previous experience as a special officer with the Manasquan Police Department.

- Special Officer Matthew Schou graduated from Brookdale Community College with an Associate's Degree in Psychology and he is currently enrolled at Georgian Court University where he is completing a Bachelor's Degree in Special Education. Officer Schou is a graduate of the Ocean County Police Academy with previous experience as a special officer with the Seaside Heights Police Department.

Budgeting

The police department continued to control costs with a strict oversight of purchasing and limiting overtime. There are strict laws in the State of New Jersey that dictate how public monies are spent. Working in cooperation with the Borough Clerk, Chief Financial Officer, Borough Administrator and our elected officials the police department has been able to operate under budget. All purchases are made using competitive price comparison, NJ State contract pricing, cooperative purchasing programs and formal bidding. The result of this process is that the police department is able to purchase needed items at a price that is substantially lower than retail.

Internal Affairs Unit

In order for the Eatontown Police Department to maintain public confidence we operate with transparency, reporting quarterly to the Monmouth County Prosecutor's Office and through them to the NJ Attorney General's Office on all matters involving Internal Affairs complaints. Our Internal Affairs files are ready for inspection by the State Attorney General or the Monmouth County Prosecutor at all times. The Eatontown Police Department and our officers are committed to providing law enforcement services that are fair, effective and impartially applied. Eatontown Police Officers hold each other to the highest standard of conduct and are expected to respect the rights of all citizens. We accept complaints from anyone 24 hours a day and each complaint is seriously reviewed in accordance with the Attorney General's Guidelines:

http://www.nj.gov/oag/dcj/agguide/internalaffairs2000v1_2.pdf

Our police officers responded to 19,659 calls for service in addition to the countless interactions our officers have with the public during routine duties. Those actions led to 14 Internal Affairs Complaints, of those complaints one was a sustained demeanor complaint and another was a sustained infraction of department rules and regulations. Citizens may be misled by the media to believe that police misconduct is on the rise but our numbers speak for themselves, 1 in every 2,750 calls for service led to any type of complaint. The dashboard cameras in our police cars continue to be a valuable tool when investigating complaints. In the near future we can expect police officers themselves to be outfitted with body worn cameras. The vast majority of officers will welcome the technology, as it will give them relief from the fear of unwarranted accusation. We hold our officers accountable for their actions and need the public's help in order to do so and therefore encourage the public to report misconduct. I am confident when saying that police officers want to work with others that hold themselves to the highest standards of honor and integrity. When a police officer abuses his power, the Internal Affairs Unit will act swiftly. The place where traffic summonses and complaints are handled is in the court system not the Internal Affairs Unit. Too often people file complaints against officers hoping it will help them in court. Complaints involving traffic summonses and municipal court offenses are immediately investigated and often held open until the court case is completed as the testimony under oath can become part of the case.

It is the policy of this department that officers conducting Internal Affairs Investigations be trained by the NJ Attorney General's Office prior to investigating any complaint of misconduct. The investigator of any complaint will conduct a thorough and objective investigation. Those investigations are reviewed by the Captain and forwarded to the Chief of Police for final approval and disposition.

For New Jersey law enforcement purposes, a **bias incident** is defined as any suspected or confirmed offense or unlawful act which occurs to a person or property on the basis of their race, color, religion, gender, handicap, sexual orientation or ethnicity. A crime is upgraded to a **bias crime** if the motive for the commission of the offense pertains to person's race, color, religion, gender, handicap, sexual orientation or ethnicity. During the 2015 calendar year the police department investigated a bias incident involving painted swastikas and graffiti that targeted religious freedoms. There was also a bias crime where a man was targeted for harassment based upon his sexual orientation.

2015 Awards

Life Saving Award – Alert action in the saving of a life.

Meritorious Service Award – A highly unusual accomplishment under adverse conditions with some degree of hazard to life and limb to the nominee or where death or injury to a third party is prevented.

Combat Cross – An individual who engages in combat with an armed adversary, at imminent personal hazard of life.

Unit Citation – A team effort under combat conditions, including all participating staff members, who in support of departmental operations distinguished themselves to effectuate the protection of Life and Property.

Medal of Honor – An outstanding act in the line of duty with risk involved.

Educational Achievement - Achievement of a degree at an acknowledged University.

Exceptional Duty – A highly creditable accomplishment to duty or service to the public. Officers also are awarded letters of commendation by the Chief of Police for meritorious service.

At the May 25th meeting of the Borough Council, Chief Goldfarb presented several members of the Eatontown Police Department with awards for their performance and commitment to duty. **Sgt. David Brown, Ptl. Ryan Braswell and Ptl. Michael Sullivan** were awarded the Meritorious Service Award for their bravery while participating in the rescue of the residents of the Throckmorton Apartments during an early morning structure fire. **Det. Aaron Shaw and Ptl. Jorge Gonzalez** were awarded the Exceptional Duty Award for their investigative skills while investigating and solving the crimes being committed by an organized theft ring. Educational Awards were presented to **Sgt. David Brown, Ptl. Christopher Bartlett and Det. Drew Clancy** for completing the Master's Degree program in Administrative Science at Fairleigh Dickinson University. The Life Saving Award was presented to nine different officers that saved the life of another while on duty; they were **Ptl. Christopher Casson, Ptl. John Gugliuzza, Ptl. Brett Paulus, Ptl. Ken Errickson, Ptl. Matthew Fix, Ptl. Ryan Braswell, Ptl. James Christie, Ptl. Michael Schmerler and Det. Jason Cardamoni**. This year members of the department raised fourteen thousand dollars for the National Law Enforcement Officers Memorial Fund. Each obtained sponsors that supported the cause of the Police Unity Tour and they rode their bicycles more than 300 miles to Washington, DC. Chief Goldfarb recognized their commitment to law enforcement by awarding **Sgt. Bryan Mulholland, Ptl. Christopher Bartlett, Ptl. Kenneth Errickson, Ptl. James Christie, Ptl. Jason Cardamoni and Ptl. Kevin Licknack** with the Exceptional Duty Award.

Eatontown Police Officers supporting the Special Olympics

Fleet Management

The police department replaced five vehicles from our aging patrol fleet; purchased were four Ford Explorers and one Ford Taurus. All purchases were made using *State Contract* pricing. Our front line vehicles are scheduled for use 24 hours a day, seven days a week. The vehicles are only taken off the road for service or when an officer has a scheduled day off. Each patrol car has four officers assigned to share the vehicle. Currently the vehicles are used for up to ten years. Initially, cars are assigned as primary patrol vehicles, then as secondary vehicles that are used when a vehicle is being serviced or by our officers that are not assigned to everyday patrol. Prior to be auctioned off, the cars are used for traffic details where contractors are paying for them to be used along with an officer directing traffic.

Humvee donated by the DOD through the LESO program

Recruitment

It is the policy of the Eatontown Police Department to actively recruit and select the best available candidates for open or forecasted vacancies in the Police Department. A goal of this Department is to maintain a ratio of ethnic minority officers that is reflective of the percentage of minorities in the Borough of Eatontown, according to the current census. The emphasis is on quality recruitment and compliance with Equal Employment Opportunity Commission (EEOC) regulations. While recruitment is an ongoing process, activities are increased during the year preceding the planned exams. The selection process will confirm that every individual applicant truly possesses the necessary skills, knowledge, stamina, poise and character required to be an effective and productive member of this agency. To that end, the Eatontown Police Department seeks those individuals who are educated, possess high moral values, are self-motivated, articulate and committed to a life's pursuit of duty, professionalism, discipline and devotion to public service.

Det. Aaron Shaw and Lt. Theresa Healy attended **Monmouth University's** Spring Career Day. They met with students, some Criminal Justice majors and others in fields relating to government. Students were given information on the requirements of becoming an Eatontown Police Officer, how to begin the process of applying and the attributes needed to compete against others in search of law enforcement careers.

Lt. Healy prior to promotion

Lt. Theresa Healy and Detective Aaron Shaw (L-R) are pictured with the Monmouth Hawk at the Monmouth University Career Day.

In April, our recruiters attended the **National Organization of Black Law Enforcement Executives (NOBLE)** 3rd annual career fair at **Brookdale Community College (BCC)**. This career fair is well-thought-of not only because it is at our community college where we can encourage residents to participate in a law enforcement careers but it also gives us the opportunity to reach out to a large diversified group of young people.

Lt. Theresa Healy and Sgt. Troy Fowlkes attended NOBLE's 3RD Annual Law Enforcement Career Fair where they spoke with a diversified group of young men and women eager to pursue careers in the criminal justice fields.

In October, the Borough of Eatontown held its annual Eatontown Day. Detective Aaron Shaw was there meeting with our residents while recruiting for current and future police officer positions.

Office of Emergency Management (OEM)

Our partners at the OEM continue to foster a good relationship with the Police Department. Coordinator Bill Mego and his staff are granted the power to command during emergencies and have taken the position of “Unified Command” during major snow storms, hurricanes, fires and hazmat incidents. During such events, Coordinator Mego sets up a command center inside of the Eatontown Firehouse. Inside the Command Center is a supervisor from the police department, fire department, first aid squad and the department of public works, to ensure that all organizations are working in a cooperative effort to provide the best services to the community.

Within the Office of Emergency Management is the Citizens Emergency Response Team (CERT) managed by Barry Roth. The emergency response team is a group of volunteers that may be ready to assist with vehicular traffic flow, searching for a missing person or any other detail that may require extra hands during an emergency. These professionals have been great to work with; they each bring a vast amount of training and knowledge during an emergency;

- William A. Mego III, Coordinator
- Rudolph Trask, Deputy Coordinator
- Barry Roth, CERT Coordinator
- Michael Johnson, Fire/Communications Coordinator
- Anthony Pusateri Jr., EMS Coordinator
- John Sanders Sr., Haz-Mat Coordinator

Summation

Under the leadership of Chief Goldfarb, following the retirements of Capt. Cleary and Lt. Tyler the police department made a seamless transition into the new year. There are newly appointed commanders in both our Detective Bureau and Patrol Division. Lt. William Lucia, our Patrol Commander assumed his new duties in August. Morale continues to be high under his command; proactive police duties are on the rise, including traffic enforcement and the checking of suspicious activity. Employee grievances are nonexistent and there is an attitude of mutual respect between our supervisors and personnel. Complaints against our officers are on track to reach an all-time low. The Borough of Eatontown has seen a 5.35% drop in Index Crimes, E.S. over the past year. Lt. Theresa Healy has taken command of our Detective Bureau. She has been given the task of training two new detectives and an investigator. Lt. Healy has met every challenge presented to her. Our detectives have investigated several serious crimes including a homicide, bank robbery, home invasion, armed robbery, sexual assaults and aggravated assaults. They have successfully solved most cases and are still pursuing leads in others.

Working together with the other emergency services, our newly appointed Sergeants; Bryan Mulholland and Antonio Amodio created a detailed emergency response plan for the Monmouth Mall. As law enforcement officers we have to prepare for the worst. They have been working diligently with the Office of Emergency Management, surrounding towns and the Department of Homeland Security to create the best response plans. The police department now has emergency response plans for several businesses in our industrial park, the Monmouth Mall and our schools.

Ptl. Christopher Bartlett has been working with the Department of Public Works, the OEM and the NJDOT to provide a secondary source of power to our traffic lights at all major intersections. This secondary source of power is essential to creating an atmosphere of calm during storms; it will allow people to travel in routes they are familiar with in order to reduce the disruptions associated with major power outages.

Services Division

LIEUTENANT KENNETH S. KLEINMAN

For 2015 the main focus of the Services Division, in addition to the daily management of the police department infrastructure, was the tri-annual reaccreditation process. Personnel changes as well as technology and fleet upgrades were also challenges that were managed during the year.

Sgt. Anthony Guido continued his role as the manager of the police department fleet as well as direct supervision of the dispatch and records bureau staff, along with the Special Police officers, and, was deeply involved in the purchase and upfitting of several new patrol vehicles. He was tasked with overall project management, which included pricing out the vehicles and equipment design and costs and meeting with vendors to finalize design plans and project implementation. The project, which began in late 2015, carried over into 2016. The choice of vehicles that were purchased was one 2014 Ford Police Interceptor all-wheel drive sedan, one standard Ford Explorer, and 4-all-wheel drive Ford Police Interceptor SUV's. This continues to increase the number of vehicles in the police department fleet that can respond reliably in adverse weather conditions to emergency situations anywhere in the Borough. Of particular note was the Ford sedan, which was outfitted specifically for traffic enforcement. The vehicle was designed without a roof mounted lightbar. The emergency lighting design, formulated by Sgt. Guido and vehicle upfitter, was geared toward maximum officer safety. The patrol officers are finding the use of this vehicle particularly effective when engaging in traffic enforcement geared toward high risk motorist behavior, such as speeding, unsafe lane changes and turns, etc. which tend to increase the instances of vehicle crashes and injuries.

The public safety radio system upgrade initiative remains an extremely important issue going forward into 2016 and beyond. Legacy technology is no longer supported by the equipment manufacturers, and adequate signal coverage remains problematic in several areas of the Borough. Budgetary considerations will have to be closely examined in order to move forward with a comprehensive plan to completely upgrade the entire system in order to facilitate safe and efficient radio communications by all of the Borough's emergency service providers.

The police department in-house data infrastructure also underwent a major upgrade. Equipment in place since 2008 was in need of renewal, along with the several Windows Server systems that are no longer supported by Microsoft. These items, along with several computer workstations and network printers and appliances were installed. Network switches and the mechanical firewall were also replaced, and network wiring was tested, and repairs or re-routing of wiring was completed. Going forward, several additional servers that control the mobile video system as well as recording telephone and two-way radio traffic have been slated for replacement in 2016.

The most notable event undertaken by the Services division was the re-accreditation process, which was completed in 2015 with the assistance of all of the members of the police department and especially Ptl. Ryan Hennelly, who is the department's Assistant Accreditation Manager, along with Sgt. Guido. After our accreditation files were returned from the "mock" assessors, we conducted a complete in-house review of the files and initiated some of the recommended enhancements to the existing General Orders in order to ensure that they complied with the stringent NJSACOP accreditation standards. The final on-site assessment occurred on January 11th and 12th. Two assessors from the New Jersey Public Safety Coalition

spent those days inspecting our General Orders along with the accompanying files that contained the documentation, or proofs, that our department complies with all of the accreditation standards. They also conducted a physical examination of police headquarters, our patrol vehicle fleet, and property and evidence areas. Upon completion of their inspection, they advised Chief Goldfarb that they would be recommending to the Accreditation Commission that we be approved for re-accreditation. Of particular note, they made the observation that the departments' records, property and evidence management was exceptional, and commented on the meticulous efforts of Special Officer James Rolly, who has primary responsibility for the day to day management of the records and property function. Many police agencies throughout the state have accomplished accreditation and re-accreditation by outside consulting firms to guide the agency through the process and do most of the legwork. It is a matter of great pride and sense of accomplishment that I can report that both the initial accreditation and re-accreditation were accomplished completely "in house".

On March 19th, 2015, Chief Goldfarb, Captain Cleary, Sgt. Guido, Ptl. Hennelly, S/O James Rolly and I appeared before the Accreditation Commission at their monthly meeting, which was held in the South Brunswick municipal building. There, the Commission recognized our achievement in fulfilling all of the requirements to continue to be an accredited New Jersey police agency. The Re-Accreditation certificate was presented to Chief Goldfarb on May 27th, 2015, at the regular meeting of the Mayor and Borough Council by Harry J. Delgado, the New Jersey State Association of Chiefs of Police accreditation program manager.

The Eatontown Police Department employs dispatchers, Class I and Class II Special Law Enforcement Officers (SLEO) to cover the needs of the Communications Center. Dispatchers are assigned strictly to dispatch. Class I Officers are assigned primarily to dispatch, but can be utilized for parking enforcement and traffic control. Class II Officers have the ability to carry weapons during their assigned work hours and are used for court security duties, prisoner transportations and traffic enforcement details. They are also cross-trained as dispatchers and are used to cover open shifts when dispatchers take time off.

In December of 2015, SLEO II Andrew Auerbach and Edward Kirschenbaum were promoted to the rank of Patrolman.

After an exhaustive search, we hired Stephen Kircher and Matthew Schou to replace Ptl. Auerbach and Ptl. Kirschenbaum. S/O Kircher was previously employed by the Manasquan police department, and S/O Schou came to us from the Seaside Heights police department. Both officers were highly recommended by their previous employers, and began initial dispatch training on January 1st, 2016.

The Borough of Eatontown's commitment to public safety starts with its Communications Center. The Communications Center is the hub of the police department and all calls for service are handled or routed through the center. The Eatontown Police Department continues to support 24 hours a day / 7 days a week dispatch services for the police department, fire department and emergency medical service. The Township of Ocean Police Department continues to serve as Eatontown's public safety answering point (PSAP) and receives and relays 9-1-1 calls for assistance to the Eatontown Police Department communications personnel.

Our communications center personnel pride themselves on their ability to handle a large volume of calls for service with professional attitude and demeanor which is second to none. In 2015, our communications center handled 21734 calls for service, which represents a 1.074% increase over 2014. It includes calls taken in by dispatch personnel, calls rerouted from our PSAP or the Monmouth County Sheriff's Department and calls initiated by patrol officers on the street. Each one of these calls required a certain degree of attention from the communications staff, whether it was to assist a citizen with directions, take a report of an incident requiring a brief entry into our CAD system, dispatching first aid or fire calls or running the full spectrum of checks for a patrol officer on the street. Our communications staff is a group of individuals with over 65 years of combined dispatch experience who truly care about their jobs and the citizens they serve. They work together as a team, and will make the extra effort to ensure seamless operations in the communications center. They will often make their availability known during their off-time when serious events are taking place, such as severe weather events, major serious incidents such as fires, robberies or homicides, and will come to work on their time off to assist the on-duty staff. We welcome and appreciate their initiative when this situation occur, and is a source of pride to the Services Division that all of our members work together efficiently each and every day.

In 2015, we found ourselves in a unique situation with our drug awareness training. Our long association with D.A.R.E. New Jersey came to an end, and the national D.A.R.E. association had a different educational philosophy which was not embraced by D.A.R.E. New Jersey or any of the educational associations in the state. A new organization, Law Enforcement Against Drugs, or L.E.A.D. took the place of D.A.R.E., and was accepted by the Eatontown Board of Education leadership as the most appropriate program to take its place. Ptl. Ryan Hennelly was instrumental in making the transition into the new program, which he successfully taught along with Det. Aaron Shaw. Ptl. Hennelly continues to be a leading authority and resource state-wide in this program, and has assisted the new organization by training police officers from other agencies to be L.E.A.D. instructors.

The Records Bureau is the nerve center of any police department. It is responsible for the maintenance, dissemination, retention and disposal of offense, incident and traffic crash reports, traffic citations and parking tickets, as well as data entry, research of police records and assistance to the public at the lobby counter, which includes releasing police reports and managing the return of impounded motor vehicles. The Records Bureau is comprised of one Records Officer and one Records Clerk, and both of these individuals report directly to the Services Sergeant. The Records Officer, SLEO I James Rolly, is responsible for the input of all computerized police data and assisting the public. He is also responsible for the processing of all evidence and property, the expungement of records, classifying crime reports for Uniform Crime Reporting (UCR) and preparing statistical reports for various internal and external agencies. He is responsible for both research and retrieval of information for individuals and criminal justice agencies, handling all Open Public Records Act (OPRA) requests and requests for discovery from defense attorneys. With over 21,000 calls for service annually, the amount of information that passes through the Records Bureau can be, at times, be staggering.

The management of OPRA requests is of particular importance, as there are strict statutory requirements for the fulfillment of these requests in a timely fashion. Penalties for failing to comply properly with OPRA requests can have serious consequences for both the police department as well as the Records Officer. S/O Rolly is, and continues to be one of the most knowledgeable individuals in his field in managing, analyzing and answering OPRA requests. More importantly, S/O Rolly has the primary responsibility of processing, storing and disposal of recovered property and police evidence. Rules of evidence must be strictly adhered to in order to successfully prosecute criminal cases. We currently hold over 4000 items in our property and evidence storage facility, and all of those items have been carefully catalogued and stored by

S/O Rolly so as to ensure the proper disposition of criminal cases as well as the proper handling of recovered property.

This past year has proven, once again, to have been very productive for the Services Division, from our vehicle and technology upgrades to our continuing success with the L.E.A.D. program and our new Special Police Officers. We continue to move forward with advances in equipment, technology, and most importantly in the caliber of our employees.

The residents of Eatontown can take pride in the fact that the Services Division approaches each new challenge with confidence and determination which our citizens expect and deserve. Each employee is driven to do their best, armed with the knowledge that their drive and expertise in their positions helps to support the mission of the police department, which is to deliver to the citizens of Eatontown services that are of the highest level possible, through training and career development.

IN MEMORIUM

It is with great sadness that I must include in this report the memorialization of Silvia Helena Morehouse, our records clerk. Silvia passed away after a long battle with cancer on January 20th, 2016. Silvia came to the police department after having served as a deputy court administrator. She was dedicated, gracious, pleasant, hard-working and loyal to her co-workers and friends. She displayed extraordinary courage during her long illness, and continued to work despite her physical suffering during and after medical treatments. She was incredibly brave throughout her ordeal, and always came to work with a smile and kind word for her co-workers. She touched all of our lives in the most positive of ways, and will truly be missed.

Operation Division

LIEUTENANT WILLIAM LUCIA

Introduction

The following is the 2015 year-end report for the Patrol Division of the Eatontown Police Department. The Patrol Division supervised by Lt. William Lucia consists of twenty-four uniformed patrol officers, the traffic safety officer, and at times the special police officers assigned to patrol the borough. The patrol division officers are the men and women of the Eatontown Police Department that initially respond to all emergency calls, enforce the traffic laws, and patrol our streets, businesses, and neighborhoods around the clock. They prevent crime, keep order, and arrest the people that break our laws. On a typical day these officers arrive for work early enough to preview what other officers have been involved in during their tours of duty. Each officer is required to prepare themselves and their vehicle for duty, and then report to their sergeant for briefing, where they are given a specific assignment for their shift. The borough is divided into four patrol zones using the boundaries provided by Highways 35 & 36. Each officer works a twelve-hour shift; they are expected to be vigilantly maintaining a police presence in our community and enforcing the traffic laws between calls for service.

On a daily basis our officers patrol the borough in some of the most technologically advanced and best equipped police vehicles available. These vehicles are equipped with automatic license plate readers, defibrillators, oxygen, radar, computers and the tactical gear necessary to protect the public. Our police officers are collaborating with school officials and businesses on a regular basis to prevent and minimize emergencies; we are ready to respond swiftly when needed.

Traffic Enforcement, Summons Activity and Calls for Service

The yearly summons activity report for the Eatontown Police Department's Patrol Division is attached. It is an overall summation of the motor vehicle summonses issued by each officer for various types of motor vehicle offenses. The total number of summonses that were issued in 2015 was 7,515. The total number of summonses is a direct reflection of the commitment our officers have made toward making our roadways safer for everyone. There were several patrol officers that excelled in the area of traffic enforcement as reflected in the number of summonses each officer issued; Edward Kirschenbaum (568), Andrew Auerbach (511), Kenneth Errickson (355), Jorge Gonzalez (636), Josh Koval (403), Christopher Quackenbus (609), Matthew Bailey (352), and Michael Sullivan (431). Our police officers responded to 19,659 calls for service, investigated 1,132 motor vehicle accidents and conducted 6,954 motor vehicle stops.

Traffic Safety

Ptl. Christopher Bartlett served as our traffic safety officer and as a member of the Monmouth County Serious Accident Response Team. Ptl. Bartlett has inherited the task of making sure that the 1000 plus accident reports that are submitted to the Division of Highway and Traffic Safety are completed in accordance with state guidelines, and made available to the public in a timely manner. His efforts make it possible for the State of New Jersey to obtain accurate statistics and that the citizens involved in motor vehicle accidents are able to provide their insurance companies with the reports. The Traffic Safety Unit investigates the most serious accidents; photographing the accident scene, gathering evidence, measuring the scene with a laser and entering the information into computer programs that make it possible for accidents to be reconstructed in the future. Ptl. Christopher Bartlett meets regularly with the Traffic Safety Committee and Planning Boards, offering his advice during the planning of new retail establishments and road construction projects. He investigates complaints of speeding in our residential zones and of hazardous traffic using the Timemark Traffic Data Counter, a computerized instrument that can gather the speed, direction and volume of vehicular traffic.

The police department is constantly inundated with complaints of speeding cars in nearly every residential neighborhood. Unmanned police cars, Code Red telephone calls and radar sign boards were helpful in slowing a lot of the traffic. Our police officers issued many speeding tickets in the residential zones and will continue to strictly enforce the speed laws with diligence in those neighborhoods. Our school crossing guards continue to do an outstanding job. This year the winter weather was again rough on them. They each came to work every day regardless of the weather, making sure that the children of Eatontown had a safe travel to and from school.

Training

Police officers are required to complete extensive annual training. As in previous years, the police department worked closely with our partners in the Office of Emergency Management to meet the requirements of FEMA. The FEMA training is required to keep our residents eligible for the Federal Government's rebuilding programs. Our partners in the Fire Department helped us meet our PEOSH standards and the First Aid Squad kept our defibrillators certified and our first aid equipment operational.

In an effort to create uniformity in our post academy training, our sergeants have identified the most important "Core Training" programs to prepare our police officers for daily patrol. Those programs are; Street Survival, Arrest Search and Seizure, 2C Law & Attorney General Updates, DWI Field Testing, MVA Crash I and Alcotest Operation. All officers will complete these programs early in their careers.

All police departments in this state are required by the Attorney General to train in; Firearms, Use of Force, Vehicular Pursuit, Domestic Violence, Blood borne Pathogens, Hazardous Materials and the Right to Know. In addition to these mandatory trainings our officers receive annual training in emergency first aid, CPR, ASP baton, handcuffing, Alcotest Operation, DWI Field Sobriety Testing and radar use. This year we added a Drug Recognition Expert (DRE) to our ranks. Ptl. Paulus was selected and completed the extensive training and is a certified Drug Recognition Expert.

In an agency the size of ours, many officers have to work together in order to stay compliant with our training mandates:

- *Oleoresin Capsicum / Domestic Violence / Pursuit* training are the responsibility of Ptl. Williams, Ptl. Ehrmantraut, Sgt. Amodio, Det. Clancy and Det. Cardamoni.
- *Field Training of new employees* is conducted by Sgt. Brown, Ptl. Williams, Ptl. Ehrmantraut, Sgt. Amodio, Det. Shaw and Det. Clancy.
- *Radar Operators* are recertified following training from Ptl. Bartlett and Ptl. Bailey.
- *Handcuffing Instruction* is given to our police officers on an annual basis by Sgt. Amodio, Det. Clancy and Ptl. Bartlett.
- *ASP Baton* instructors are Det. Clancy and Ptl. Bartlett.
- *CPR and First Responder First Aid* are taught annually by Ptl. Gugliuzza and Ptl. Bartlett using the American Heart Association method.
- *Blood Borne Pathogen*: Ptl. Gugliuzza and Ptl. Bartlett instruct our officers annually on proper handling and dangers of blood borne pathogens.
- *Narcan*: Ptl. Braswell trained the entire police department on the use of Narcan, that training and the deployment of the Narcan resulted in approximately 15 drug overdoses being neutralized on medical calls during the year.

Some of the other special details being performed by members of the police department:

- *EMT's*: Ptl. Braswell, Ptl. Gugliuzza, Ptl. Paulus, Ptl. Hennelly, Ptl. Bartlett, and Ptl. Gonzalez.
- *First Aid equipment*: all equipment is monitored for readiness and medical bags are kept stocked by Ptl. Braswell and Sgt. Guido.
- *Domestic Violence Response Team*: Det. Cardamoni serves as the liaison to the DVRT and 180 Turning Lives Around.

- *Serious Accident Response:* there are times when the Monmouth County Serious Accident Team is not available to respond to a serious accident or it does not fit their response guidelines, such as a single car accident with serious injury or death. The Eatontown Police Department has its own team of trained accident investigators that are on call. They are Ptl. Bartlett, Ptl. Bailey, Ptl. Casson, Ptl. Hennelly, Sgt. Guido and Sgt. Fowlkes.
- *Firearms:* Sgt. Antonio Amodio is in-charge of our firearms training along with the assistance of Ptl. Matthew Williams, Ptl. Arthur Ehrmantraut, Det. Drew Clancy and Det. Jason Cardamoni. These officers have put together a comprehensive program that is keeping the department in compliance with all of the Attorney General's mandates. Our officers currently qualify with a firearm, no less than four times annually, to insure and demonstrate proficiency. The department uses both the Monmouth County outdoor range and the Howell Township outdoor range to meet the qualifications necessary for police officers to carry handguns, shotguns, and the M4 rifles. Tactical training and practical exercises are conducted with the aforementioned weapons in addition to the basic handgun qualifications.

MOCERT AND RDF

Sgt. Antonio Amodio and Sgt. Bryan Mulholland continued as members of the **Monmouth County Emergency Response Team (M.O.C.E.R.T.)**. That group is made up of police officers from municipal and county agencies in a shared services type of agreement, to provide the services that are often referred to as S.W.A.T. This dedicated team is made up of police officers from different departments in the county that have proven themselves to be both mentally and physically fit, along with having the ability to accurately discharge a firearm and control their emotions during stressful situations. Both of our officers are assigned to "Entry" teams. Their involvement in M.O.C.E.R.T. has benefited the police department; both Sgt. Amodio and Sgt. Mulholland share the unique training that they receive with the other officers in the department and are immediately available to us during emergencies. In addition to their monthly training assignments both officers spent a full week training on active shooter response and hostage rescues. By participating in M.O.C.E.R.T., our town enjoys the full benefits of having an elite unit at our disposal without the expense of having our own tactical team.

Rapid deployment force (RDF) is a law enforcement formation capable of quick deployment of its personnel and resources for emergency operations. Monmouth County created a RDF which consists of law enforcement officers from various agencies throughout the county. These officers are trained at a higher intensity and are utilized on an on-call basis. They receive priority in equipment and training to prepare them for their mission. Det. Jason Cardamoni was selected and currently serves on the Monmouth County Rapid Deployment Force.

Internships

The Eatontown Police Department has an agreement with the Monmouth County Vocational School District and Monmouth University to provide internships for those schools. The students are exposed to the functions of patrol, records keeping, detective duties, juvenile law,

community services, traffic safety, administrative duties and the municipal court. Our goal is to provide each student with enough information about municipal police work to make the decision as to whether or not they want to follow the career path of becoming a municipal police officer. These opportunities are limited to one student per semester and they are reserved several months in advance. The students spend 90-120 hours in the department during their study and are expected to write a paper on their experience.

Calls for Service / Arrest / Investigation

Calls for Service		2015	
Total		19659	
Calls for Service by Nature		2015

Just a few of the more interesting calls omitting the sexual assaults, suicides, overdoses and sudden deaths were:

- A woman had a gun held to her head after the actors entered her room by forcing in the air conditioner and climbing through the window. The woman was then assaulted and robbed before the actors fled the scene.
- A man was killed in a motor vehicle crash at the intersection of Hope Road and State Highway 36.
- A juvenile was stabbed at Memorial School by another juvenile at a recreation basketball game.
- A man was stabbed in the face and abdomen by his girlfriend during a domestic dispute.
- A man sustained multiple lacerations while struggling with two subjects who had just robbed him at knifepoint.
- Multiple victims were rescued from a fully involved fire at Garrison Apartments.

- A gas station attendant was robbed while working and was subsequently involved in a physical altercation with the robber.
- A man was shot and killed outside of his apartment. A total of 26 rounds were fired, the victim was struck 11 times and subsequently died from his injuries.
- The TD Bank was robbed at gunpoint.
- Ptl. Bernard Silverstein was involved in a career ending motor vehicle crash on State Highway 35. His patrol vehicle was struck by another vehicle which lost control and crossed the center line.
- A man was stabbed during a domestic dispute with his girlfriend.
- A man was knocked unconscious after being struck in the head during a dispute.
- A man was physically assaulted and had a gun pointed at him outside of Buffalo Wild Wings.
- A man, his girlfriend and their infant son were victims of a home invasion where armed assailants assaulted and robbed them at gunpoint.
- A man was robbed of electronics at gunpoint outside of his apartment.
- A woman was arrested for assaulting her sister during a domestic dispute and then resisted arrest and assaulted a police officer.
- A woman was assaulted and threatened with a crossbow while having a domestic dispute with her boyfriend.
- A man barricaded himself in his apartment armed with a gun and refused to come out. MOCERT was called out and the incident was brought to a successful conclusion without anyone hurt.

Department Summons Activity

During the 2015 calendar year, a total of seven thousand five hundred and fifteen (7,515) summonses were issued by the department. Below is the ten-year comparison of summonses issued:

Ten Year Comparison	2015	2014	2013	2012	2011	2010	2009	2008	2007	2006
Total Summons	7,515	8,533	8,327	7,756	6,795	8,084	7,439	8,600	7,159	7,013

Investigations Division

DET. LIEUTENANT THERESA HEALY

The Eatontown Police Department Investigations Division consists of 5 full time detectives, one investigator, and one civilian employee. All of the members of the division take their responsibilities very seriously and are committed to the idea of conducting full and comprehensive investigations of each and every crime which is reported to this agency. All of the officers in the division have made this commitment to the citizens of Eatontown, as well as to the many visitors to our community, because they know and understand the importance of public service and they believe that the citizens whom they serve deserve no less than the best we have to offer.

In order to fulfill this commitment, each incident report which we receive in the investigations division is reviewed by a division supervisor, who is well versed in the area of criminal investigations follow-up. The review is used to determine the proper course of investigative action needed, including all aspects of the case to ensure that all options will be explored and all investigative techniques will be exhausted. After this initial review each case is assigned to a detective for follow-up. Throughout the course of the investigation the detective's actions are monitored by the division supervisor and at the conclusion of the investigation the supervisor reviews the case yet again to ensure the quality of the investigation and make sure that the case was concluded appropriately.

This same monitoring and review process will also be employed by a division supervisor when dealing with investigations which have been self-initiated by one of our detectives.

Assigned personnel:

In 2015, the investigations division saw several personnel changes. Investigator Matthew Bailey was reassigned to the patrol division at the end of his six-month investigator rotation. This vacancy was filled by Officer Drew Clancy, who was assigned to the position of investigator in January of 2015 for a six-month rotation. Officer Clancy's assignment was extended another 6 months due to his exceptional caliber of work. In August of 2015, Detective Lieutenant Lawrence Tyler retired from the police department after 26 years of service. Sergeant Healy, who had been assigned to the division as the Detective Sergeant was promoted to the rank of Lieutenant in November of 2015. Another major change for the investigations division was the reassignment of Detective Antonio Amodio and Detective Bryan Mulholland. Both of these individuals were promoted to the rank of Sergeant in August and November respectively and were reassigned to patrol.

In September of 2015, Officer Jason Cardamoni was assigned to the investigations division. His assignment to the division helped fill the vacancy left by Sgt. Amodio. Officer Cardamoni has been an asset and continues to demonstrate his skill and ability.

Unfortunately, due to retirements and injuries throughout the police department we were unable to fully staff the investigations division by year's end.

Detective Lieutenant Lawrence Tyler

Lieutenant Lawrence Tyler has served as the commander of the Investigations Division since April of 2011 before retiring. Detective Lieutenant Tyler's responsibilities included: delegation of duties for all personnel, scheduling of division man power and handling of all time off requests. Oversight of all investigations – including juvenile matters, registration and tracking of all Megan's Law Offenders utilizing a new statewide web based system, oversight of the police department's Law Enforcement Trust Fund (LETF) and all forfeiture assets, responsibility for collection and coordination of Vice – Narcotics and Organized Crime information, background investigations for all potential employees of the police department as well as some departments within the Borough of Eatontown, as well as oversight of all background investigations for those seeking permits for firearms, alcoholic beverage licenses, taxi cab operators, solicitors, and members of the volunteer fire department and first aid squad. Lieutenant Tyler is also the police departments Anti-Terrorism Coordinator and Homeland Security Liaison to the Monmouth County Prosecutor's Office. Due to having several high risk businesses, the Monmouth Mall and multiple schools in town, a plan was devised to handle potential dangerous situations that can occur at these locations. Our officers have trained with the appropriate authorities so that our businesses and police officers can work together effectively if a situation was to arise. In addition to these duties, Lieutenant Tyler also served as the Public Information Officer for all matters related to the police department.

Detective Sergeant Theresa Healy

Detective Sergeant Healy has the direct responsibility for case management of all criminal cases, which include follow-up on all criminal cases and monitoring and review of all cases assigned to the detectives. She also has the responsibility for reviewing all police reports involving indictable offenses, which are completed by both the investigations division and the patrol division. Part of this review process includes making sure all reports are properly vetted before being logged into the records division for dissemination.

Detective Sergeant Healy also has direct responsibility for completion of background investigations for those seeking alcoholic beverage licenses and firearms permits. In November of 2015, Detective Sergeant Healy was promoted to the rank of Lieutenant and remained in the investigation division, where she took over the duties and responsibilities of Detective Lieutenant Tyler.

Detective Antonio Amodio

Detective Amodio was responsible for the investigation of all types of criminal cases. During his tenure, Detective Amodio was in charge of crime scene photos and maintenance of equipment and supplies. Due to an injury, Detective Amodio was on extended leave from January until June. When he returned, he resumed all of his assigned duties. In August of 2015, Detective Amodio was promoted to the rank of sergeant and was reassigned to the Patrol Division as a Patrol Sergeant.

Detective Bryan Mulholland

Detective Mulholland investigated a wide array of criminal cases. Detective Mulholland was also tasked with completing all background investigations for solicitors, superintendents, and taxi drivers. Additionally, he was given the responsibility of collecting and cataloging all of the pawn receipts which the department receives from a number of shops within the borough. Detective Mulholland was out on injury for several months during the year. In November of 2015,

Detective Mulholland was promoted to the rank of sergeant and was reassigned to the Patrol Division as a Patrol Sergeant.

Detective Aaron Shaw

Detective Aaron Shaw remains as the department's Juvenile Detective. His duties include the follow-up of all juvenile matters resulting in criminal charges, the carrying out of Station House Adjustments and attending the Juvenile Conference Committee Meetings for Juvenile offenders. As a certified D.A.R.E. Officer, Detective Shaw also assisted Patrol Officer Hennelly in the Community Service Unit with teaching D.A.R.E. in the three borough elementary schools. In addition to these assignments Detective Shaw also investigated criminal cases not pertaining to juveniles. Detective Shaw is the senior detective assigned to the division and as such handles his fair share of major cases, including the homicide that occurred in July of 2015 as well as the armed robbery of the TD Bank and multiple aggravated assaults.

Detective Drew Clancy

In the beginning of his time in the investigations division, Detective Clancy worked alongside one of the assigned detectives to investigate and follow up on a multitude of different cases. During his initial tenure Detective Clancy was also given the opportunity to attend training classes on interview and interrogation and crime scene processing. At the conclusion of his six-month rotation, Detective Clancy's assignment was extended for an additional six months before being assigned to the investigations division on a full time basis.

Detective Clancy is responsible for the investigation of all types of criminal cases ranging from criminal mischief to armed robbery to homicide. Detective Clancy is also responsible for logging in and cataloging all crime scene photos which are taken by division detectives, as well as by patrol officers at the scene of a crime. In addition to these duties Detective Clancy also has the responsibility of maintaining all of the electronic equipment used by the division, including the cameras, laptop computers, and covert surveillance equipment.

Detective Jason Cardamoni

Detective Cardamoni followed suit with Detective Clancy in regard to his initial training. He worked side by side with a Detective in order to learn the required introductory skills. He also attended various interview and interrogation courses as well as crime scene processing and Detective Enhancement Training. Detective Cardamoni is tasked with the investigation all types of criminal cases that require follow up. He was also given the responsibility of collecting and cataloging all of the pawn receipts which the department receives from a number of shops within the borough. In addition to his duties in the investigation division, Detective Cardamoni is a member of the Monmouth County Rapid Deployment Force, which is an organization that consists of members of the law enforcement community around the county that respond to high risk calls that require specialized police response.

Danielle Gianfrancesco – Clerical Staff

Danielle has been working in the investigations division for the past four years as clerical staff on a part time basis. Danielle's duties include taking calls routed to the office, filing of all paperwork and background information related to firearms applications, taxi licenses, superintendent's licenses, handicap permits, solicitor's licenses and precious metal licenses. Danielle also schedules all volunteer fingerprinting and general public fingerprinting requests. In addition to these duties Danielle is responsible for forwarding all indictable reports and all

juvenile paperwork to the Monmouth County Prosecutor's Office. Danielle also assists the Juvenile Detective with preparing juvenile criminal complaints and juvenile referrals. Furthermore, Danielle serves as the secretary of the Eatontown Alliance for the Prevention of Drug and Alcohol Abuse Committee.

Investigator Program

The goal of the Investigator program is two-fold. First, the program gives patrol officers the experience of investigating and following up on a wide range of crimes which allows the officers to build on their knowledge base in the area of criminal investigations. Secondly, It gives the officers a chance to prove themselves in the area of investigations so that they might be considered for assignment to the investigations division if and when a position becomes available. Although both of the goals of the program serve a valid purpose, the second goal of allowing officers the opportunity to prove that they have what it takes to become a detective within the division has proven itself to be quite useful in the past few years.

Major Cases of 2015

❖ Homicide

On July 10, 2015 at approximately 0013 hours, Sgt. Fowlkes responded to the area of Country Club Road for what he believed to be the sound of fireworks. When he pulled onto Country Club Road, he observed a male subject laying on the ground. It was immediately apparent that the victim had been shot multiple times. The victim, a 37-year-old Eatontown resident, succumbed to his injuries a short time later. The investigation is being led by Detective Aaron Shaw and Detective Kevin Condon of the Monmouth County Prosecutor's Office. It is still an ongoing investigation with every potential lead being followed up.

❖ Aggravated Assault with a firearm

On September 15, 2015 at approximately 2355 hours, patrol officers responded to the Monmouth Mall, specifically the parking lot area near Buffalo Wild Wings, for a report of an aggravated assault. It was reported that there were two accused male subjects that brandished a handgun during the assault and that there were six victims, one of which was physically injured. A description of the vehicle that the accused subjects had left the scene in was obtained from witnesses. Detective Mulholland was called out to the scene to handle the investigation. During his investigation, he obtained statements from several of the victims and witnesses. The following morning, Patrolman Brett Paulus was on patrol and observed a vehicle matching the description of the accused's vehicle. He conducted a motor vehicle stop and found that the sole occupant had an outstanding warrant. As a result, the subject was arrested and transported to police headquarters. Detective Aaron Shaw conducted an interview with the subject in regard to this incident and garnered a full confession. During the course of the investigation, Detective Shaw learned the identity of the second subject. Through continued effort and collaboration with other law enforcement agencies, the second subject was arrested a short while later by Detective Shaw.

❖ Home Invasion

On November 12, 2015 at approximately 0430 hours, patrol officers responded to a residence for a reported home invasion. The victims, a male and female, along with their infant son, were held at gunpoint while the suspects demanded money. The male victim was physically assaulted after telling the accused subjects that he did not have any money to give them. The subjects

eventually left the residence with approximately \$500.00 in cash and the female victim's cell phone. Detective Drew Clancy was called out to the scene to continue the investigation. Detective Clancy processed the scene and was able to collect blood evidence as well as fingerprints. As of this date, we are still awaiting the DNA results.

❖ Tailgate Thefts

On June 17, 2015, the manager of Buhler Ford reported that sometime between June 12th and June 17th, unknown actor(s) stole four tailgates from F350 pickup trucks that were parked on the lot. The total amount for the items stolen was \$14,000.00. Detective Shaw was assigned to follow up on this report. As a result, he was able to view video footage from the dealership that showed a vehicle and a subject enter the lot during off business hours. The subject is not observed removing anything, however, does remain on property for approximately 20 minutes before leaving. The suspect vehicle was believed to be a Nissan 240SX. Having this information, Detective Shaw created a bulletin with a picture of the vehicle and of the male subject and sent it to other law enforcement agencies within the state. Two days later, Patrolman Christopher Casson was on patrol and observed a vehicle matching the description from Detective Shaw's bulletin. Patrolman Casson was able to conduct a motor vehicle stop and identify the subject. Detective Shaw was able to interview the subject, who admitted to stealing the tailgates. The suspect also admitted that he had been stealing tailgates since March from Buhler Ford, which he estimated to be approximately twelve in total worth \$22,500.00. If it weren't for the joint effort displayed by Patrolman Casson and Detective Shaw, this case may not have seen a successful conclusion.

❖ Bank Robbery

On September 10, 2015, patrol officers responded to the TD Bank located on Wyckoff Road for a report of an armed robbery. The victims reported that a male subject entered the bank, brandished a handgun and demanded money. The accused subject was handed an undisclosed amount of money and ran out of the bank. Detective Aaron Shaw and Detective Bryan Mulholland responded as the detectives for the case. Several witnesses and victims were interviewed and provided statements. The investigation is still ongoing due to new information that has been received.

❖ Residential Burglary

On July 5, 2015, patrol officers responded to Sandspring Drive for a reported burglary. The homeowners had just returned home from a short vacation when they realized that their home had been burglarized. It appeared that entry had been made through a rear sun room door and several items had been taken from the residence. Detective Drew Clancy was assigned to respond to the scene. Detective Clancy learned that the homeowner had a surveillance camera installed at the residence and that it captured the accused subject. After reviewing the video, Detective Clancy found that the accused subject was wearing a head covering that obstructed a clear view of his face, however, did provide some outline of him. With the little information that Detective Clancy had at this point, he was able to create a bulletin of some of the still images he had of the suspect and the modus operandi. Shortly thereafter, Detective Clancy began to receive phone calls from several other surrounding law enforcement agencies that advised they had similar incidents involving the same suspect. An identification was made and a search warrant was obtained for the accused's residence. Multiple law enforcement jurisdictions worked together and executed the search warrant. They found hundreds of items that had been reported stolen throughout the county. They also obtained information that the accused had a storage facility. Another search warrant was obtained and executed at the storage facility. It was there that a laptop belonging to the victims of Sandspring Drive was located. Without

Detective Clancy's follow up investigation, the victim's property would not have been located and an arrest would not have occurred.

Statistics

In 2015, personnel assigned to the investigations division initiated 427 calls for service. Through their follow up investigations, as well as officer initiated calls for service, the investigations division personnel were responsible for 117 arrests of offenders.

The calls for service statistics are listed below by detective:

Detective Lieutenant Tyler	24
Detective Sergeant Healy	118
Detective Amodio	23
Detective Mulholland	13
Detective Shaw	117
Detective Clancy	78
Detective Cardamoni	54

The arrest statistics are listed below by detective:

Detective Lieutenant Tyler	2
Detective Sergeant Healy	8
Detective Amodio	13
Detective Mulholland	14
Detective Shaw	37
Detective Clancy	48
Detective Cardamoni	21

In 2015 there was an overall Increase in crime of 1.20% as compared to 2014.

Major Crime Comparison:

Crime Statistics	2014	2015	Changed	Cleared
Homicide	0	1	100.00%	0.00%
Rape	2	4	100.00%	50.00%
Robbery	10	15	50.00%	33.33%
Assault	177	159	-10.17%	43.40%
Burglary	48	36	-25.00%	25.00%
Larceny	420	414	-1.43%	43.48%
M.V. Theft	5	12	140.00%	25.00%
Arson	0	0	0.00%	0.00%

Outlook for 2016

Throughout the 2015 calendar year the investigations division faced several challenges, including the reassignment of personnel, the simultaneous training of several new detectives as well as extended leave for injuries of 2 senior detectives. Most of these changes were the result of positive actions, including the retirement of senior officers and the hiring of new officers. Unfortunately, during this period of change we found that there was a sharp decline in the experience of our investigative staff. Through the extensive use of our investigator program I feel that we have found the right personnel to staff our investigations division. Through outside training opportunities, as well as leaning heavily once again on the experience of our remaining senior members, I feel that we are well on our way to not only meeting but exceeding the high standards which the residents of Eatontown have come to expect.

I believe that the personnel assigned to the investigations division are all highly qualified in their own right and each has shown themselves to be highly motivated in our quest to keep the residents and visitors of Eatontown safe.

Over the course of 2015 our new detectives have shown themselves to be not only reliable but resilient in the face of adversity and in dealing with multiple layers of organizational change. They have proven themselves capable of handling all aspects of criminal investigations and have shown that they are more than willing to step up and perform above what is expected of them when needed.

I have every confidence in the personnel who are currently assigned to the Investigations Division and I believe that they can handle any situation which may come their way. In 2016 we look forward to increasing our institutional knowledge not only in the area of criminal investigations but in every aspect of police work.

2015 Juvenile Bureau Annual Report

DETECTIVE AARON SHAW

During the year 2015, the Eatontown Police Department responded to numerous calls for service requiring officers to interact with juveniles in the performance of their duties. In 62 of those interactions, a juvenile was arrested and taken into custody. Several of these juveniles received multiple criminal charges as is reflected in the below chart. The number of juveniles arrested in 2015 (62) is an 8% decrease from 2014 when there were (69) juveniles arrested. The arrests arose from a variety of crimes, the majority being for disorderly person offenses, such as shoplifting and underage possession of alcohol. Although juvenile arrests were down, there was a substantial increase in the amount of Division of Child Protection and Permanency (formerly DYFS) referral cases Eatontown Police Officers assisted in investigating. These cases ranged from the physical and/or sexual abuse of children to concerns with illicit drug use in the home. There was a 33% increase in these cases in 2015 compared to 2014.

In addition to juvenile arrests and DCP&P referrals, officers responded to a multitude of other calls for service involving juveniles as either victims, or as perpetrators in instances when they were not arrested. The following list is a brief synopsis of the additional calls for service involving juveniles in 2015:

- Police Officers investigated 5 cases of sexual assault involving juveniles.
- 21 mental health crises were reported to the police requiring an officer to respond to the juvenile's home and assist a parent and /or to transport the juvenile to a nearby hospital for further evaluation.
- Police Officers assisted the NJ Division of Youth and Family Services in investigating 36 cases of child abuse and/or possible child endangerment.
- Police Officers answered 8 calls of missing or runaway juveniles, and in all cases the juvenile was located or returned home.
- Police Officers responded to 24 disorderly conduct calls involving juveniles.
- There were 26 incidents of harassment/bullying reported to the police. These incidents were either verbal, physical, or social media related.
- 54 juveniles were either present or involved during domestic violence disputes.

- 22 juveniles participated in the “Station House Adjustment Program” for offenses ranging from shoplifting, theft, and criminal mischief. In all other cases, criminal complaints were signed against the juvenile and forwarded to the Monmouth County Superior Court Family Division.
- 4 juveniles received truancy complaints from their respective schools.

Juvenile Conference Committee

The Juvenile Conference Committee (J.C.C.) has performed under the guidelines set forth by the Juvenile Justice Department now for the past eight (8) years. In the past, the police department’s Juvenile Detective would meet with the committee, who at the time were made up of community volunteers. Minor juvenile cases would be discussed between the accused juvenile, their parent(s) or guardians(s) and the committee. After discussing the incident, the committee agreed upon discipline and/or action(s) which would then be handed down to the accused juvenile. Over the course of the last several years, the police department has taken a very limited role in attending and participating in the J.C.C. meetings. This is because the J.C.C. is no longer made up of volunteers. It is run and monitored by specially trained and appointed persons from the Monmouth County Family Court House. The J.C.C. members continue to come up with constructive ideas and programs to help keep juveniles headed in a positive, trouble-free direction. Some of these programs include counseling and life-skills training provided by “Prevention First,” a non-profit diversionary program based in Ocean Township.

Adjustment Programs

When a juvenile is involved in an act, that if committed by an adult would lead to an arrest, a police officer has different actions he/she can take. Each action is governed by the rules of the Monmouth County Prosecutor’s Office and the State Attorney General’s Office. An officer may take a juvenile home without an arrest and turn the juvenile over to his/her parents, which is called a “curbside adjustment.” Juveniles who are arrested and taken into police custody for minor crimes can be released and later have their charges dismissed if they complete a “Station House Adjustment Program.” This program is used when it appears a parent will handle a juvenile infraction as well as, or better than the court system. It must be the juvenile’s first and only time being arrested. Any juvenile with a prior arrest record is not eligible for a second or subsequent Station House Adjustment (S.H.A).

The Station House Adjustments, which are performed in our police department, require that the accused juvenile, along with the parents or legal guardians of the accused juvenile, be present. During the meeting, we review the particular incident that the juvenile was involved in and then discuss why what they did was unlawful and how to correct their behavior in the future. Constructive discipline is then handed down to the juvenile. The requirements set forth in the S.H.A. must be performed within a certain time frame that is given in order to successfully complete the program.

One of the requirements set forth in the S.H.A. program for juvenile shoplifting offenders is the completion of a program called the "Y.E.S. Program", or the Youth Educational Shoplifters Program. It was created by the National Association of Shoplifting Prevention (NASP). The NASP is a non-profit organization that was originally formed in 1977. The goal of this organization is to evaluate and properly guide each juvenile that has been involved in any type of theft/shoplifting incident. They achieve this goal through an online course of scenario based and risk assessment questions. I work closely with the program administrator who appraises me of the students' completion of the program as well as their level of re-offending, which is categorized as; low risk, medium risk, or high risk.

MCPO Central Charging

The agreement with the Monmouth County Prosecutors Office to centrally charge all juvenile offenders is working well. When a juvenile is arrested, private citizens or merchants will sign complaints at police headquarters. The complaint is then forwarded to the M.C.P.O. and reviewed for disposition. The central charging of juveniles at the Superior Court level creates a tracking record of a juvenile's criminal history. The tracking is beneficial when a juvenile is transient. In the past, a juvenile could move from town to town and he /she would start with a "clean slate" in each town. Therefore, a juvenile with a history of trouble with the law could be omitted from needed intervention. When a juvenile complaint is forwarded to the Monmouth County Prosecutor's Office, the tracking record of central charging is used in making the decision as to whether the complaint will be adjudicated by the Eatontown Juvenile Conference Committee, a Municipal Court Judge presiding as a Juvenile Referee, or by one of the Superior Court Judges.

Eatontown Schools

I was appointed the Police Department's Juvenile Detective in June of 2013. I am pleased to have made and maintain a positive working relationship with the principals, teachers, and guidance counselors of the Eatontown Schools. I have served as a Drug Abuse Resistance Education Officer (D.A.R.E.) since 2013, which allows me to interact on a personal level with 6th grade students. In 2015, the NJ State Department of Education and Chiefs of Police agreed to replace D.A.R.E. with a new program called L.E.A.D., or Law Enforcement Against Drugs. The lessons of the L.E.A.D. Program were designed to combat the latest drug trends and problems influencing our youth, such as bullying and the growing heroin epidemic in New Jersey. Its evidence based curriculum has been proven to have a positive impact on students.

Drug Alliance

The Eatontown Alliance for the Prevention of Drug and Alcohol Abuse is a committee made up of representatives from the Borough of Eatontown, the Eatontown Police Department, the Eatontown Board of Education, and the Eatontown Borough Council. Its goal is to formulate

a comprehensive, coordinated substance abuse program for the residents of Eatontown. The alliance conducts a need assessment, produces an annual prevention plan, and advocates for enhanced prevention services based on community needs and practices.

As a member, I work with the committee by attending and participating in the monthly meetings, as well as provide any information that may be useful in combating negative juvenile trends that our community is facing. In 2015, the Eatontown Drug Alliance initiated a community campaign aimed at enforcing underage drinking laws and reducing underage drinking. The campaign was named, "Project Sticker Shock," and it involved 6th, 7th, and 8th grade students from Eatontown schools. The students created posters depicting slogans and pictures of the consequences of underage drinking and providing alcohol to minors. All participating students were then invited to attend the "kick off" breakfast and later displayed their posters in the Monmouth Mall. This April, Eatontown students will once again be participating in Project Sticker Shock in recognition of National Alcohol Awareness Month.

One of the major events sponsored by the Drug Alliance is Open Court Sports Night. Open Court Sports Night is open to all Eatontown students and is held every Friday night at the Memorial School. There are approximately 25-35 students who attend every week and it has proven to be a positive alternative and deterrent to deviant behavior.

2015 Juvenile Crime Statistics

Traffic Safety Bureau

TRAFFIC SAFETY OFFICER CHRISTOPHER BARTLET

Administrative

The traffic safety officer is responsible for many administrative and statistical gathering duties. Below is a list of many responsibilities covered daily by the Traffic Safety Bureau.

In 2015, one thousand one hundred and thirty two (1,132) crash reports were reviewed and approved by the Traffic Safety Bureau. It is a daily responsibility to review crash reports and approve them so they may be distributed to the appropriate parties that were involved in these crashes. Once approved, these crash reports are also forwarded to the appropriate state agency for statistical data analysis. I also assist patrol officers in conducting follow up investigations for certain motor vehicle crashes, taking statements from involved parties and witnesses.

As the traffic safety officer, I am assigned to represent the police department as a member of the Traffic Advisory Committee. The committee has the responsibility to address various traffic issues within the borough. This is an important role for the Traffic Safety Bureau because we need the members of the community to voice their concerns to help keep our community a safe place for all.

The bureau also helps the borough's building department by reviewing all building plans before they are sent to the appropriate boards for final approval. The Traffic Safety Bureau makes sure that all traffic rules and regulations are followed as per the Manual Uniform Traffic Control Devices procedures. In 2015 the bureau reviewed eight (8) separate building plans and they are as follows:

- 10 Industrial Way East
- The Audi Dealership
- Block 1502, Lot #1
- Habit Burger
- Lightbridge Academy
- 51 James Way
- Spring House
- Voyager's School

The Traffic Safety Bureau has the responsibility of inspecting and enforcing taxi cab ordinances for the borough. In 2015, the bureau inspected over seventy (70) taxi cabs to make sure they were in proper working order to ensure the safety of their passengers.

As the traffic safety officer, I am assigned to the Monmouth County Serious Collision Analysis Response Team. In 2015, I responded and assisted with more than twenty (20) serious and fatal motor vehicle crashes in Monmouth County. I also took the lead on investigations for six fatal motor vehicle crashes in 2015, two of which occurred here in the Borough of Eatontown.

The Traffic Safety Bureau oversees all school crossing guards and conducts annual training. There are currently five regular crossing guards and two per diem crossing guards that are employed by the borough. In 2015, Susan Gnadinger resigned from her position at the Woodmere School, to take a full time position within the borough's school system. To fill this vacancy, Lorraine Gallagher, a resident from the borough, was hired who has previous experience as a crossing guard from the Rumson Fair Haven school district. These crossing guards are a vital part of the police department to help watch over the children of the borough.

Municipal Impound Facility (MIF)

The Traffic Bureau oversees and maintains the MIF on a daily basis. Officers of the Patrol Division and Detective Bureau impound motor vehicles for various reasons throughout the year. These impounds include but are not limited to; being uninsured, DWI arrests, serious or fatal motor vehicle crashes, unsafe motor vehicles, and vehicles that are used in the commission of a crime. Motor vehicles held in the MIF are charged a storage fee of \$30.00 per day. Vehicles held for forfeiture reasons are overseen by Det. Lt. Healy. Every year the Traffic Safety Bureau has six towing companies at its disposal and will create a rotating towing schedule.

For the 2015 year, one hundred and sixteen motor vehicles (116) were impounded by the police department. At the end of the year the MIF brought in a total of \$13,420.00 in storage fees. It is of the utmost importance that the Traffic Safety Bureau ensures the MIF is organized and proper records are kept. This would not be possible without the assistance of the records officers.

Grants

The Traffic Safety Bureau applies for grants throughout the year which are run by the Division of Highway Traffic Safety. A total of five grants were obtained during the 2015 calendar year and one grant was completed that started in 2014. These grants enable the department to participate in state run initiatives to help enforce motor vehicles laws. This includes making sure motorists wear their seat belts and DWI enforcement. Officers during these details enforce and help educate the public on motor vehicle laws, and the dangers of not abiding by these laws. The Traffic Safety Bureau is responsible for initial applications, closing the application,

scheduling of officers, submission of financial reports and statistical data collection for research purposes. Below are details for each grant run this year.

- “Click it or Ticket” was started on May 18th, 2015, and came to a completion on May 31st, 2015. A total of \$4,000.00 was received. During this time period five hundred and forty six (546) summonses were issued, of these, seventy eight (78) seat belt summonses were issued, and forty three (43) arrests were made.
- “Drive Sober Get Pulled Over, Labor Day Crackdown” was started on August 21st, 2015, and came to a completion on September 7th, 2015. A total of \$5,000.00 was received. Officers issued a total of three hundred and sixty three (363) summonses. Officers made thirty five (35) arrests and also made two DWI arrests.
- “Drive Sober Get Pulled Over, Year End Holiday Crackdown” was started on December 11th, 2015, and came to a completion on January 1st, 2016. We received a total of \$5,000.00. Officers assigned to roving patrol stopped and issued five hundred and fourteen (514) summonses. Officers made a total of fifty one (51) arrests and made one DWI arrest.
- “Crash Reduction Initiative” is a federal grant that was obtained by the National Highway Traffic Safety Administration. This grant was used to help reduce the number of motor vehicle crashes that take place within the borough. A total of \$14,523.00 was received, \$9,600.00 for officers to enforce motor vehicle violations that cause crashes and \$4,923.00 was received to purchase traffic safety supplies that can be used at crash scenes and other emergencies. The enforcement portion of this grant started on July 3rd, 2015 and came to completion on September 19th, 2015. Officers stopped and checked four hundred and forty seven (447) motorists and issued a total of three hundred and eighty two (382) summonses.
- The Drunk Driving Enforcement Fund is applied for every year. This grant is divided, half must be used for DWI enforcement and the other half of the funding obtained must be used to purchase equipment. The traffic bureau was able to obtain \$4,427.00 in funding. In 2015, this funding was used to purchase supplies for the Alcotest machine and pay for the simulator recertification. This funding was also used to set up various roving DWI patrols throughout the 2015 and 2016 calendar year.
- The Pedestrian Safety / Education Grant was started on July 1st, 2014 and concluded on June 30th, 2015. This agency received \$5,200.00 for officers to enforce pedestrian laws and educate the public. Officers issued one hundred and fifty six (156) summonses, gave out one hundred and sixty seven (167) warnings to pedestrians and motorists. Our Community Policing Officer Ryan Hennelly also assisted with this grant by giving pedestrian safety presentations to the children in our school district. Through this grant we saw a drop in pedestrian related crashes during this grant period. The 2013/ 2014 grant period we saw twenty (20) pedestrian related crashes, whereas in the 2014 / 2015 grant period we saw fourteen (14) pedestrian crashes.

DWI Checkpoints

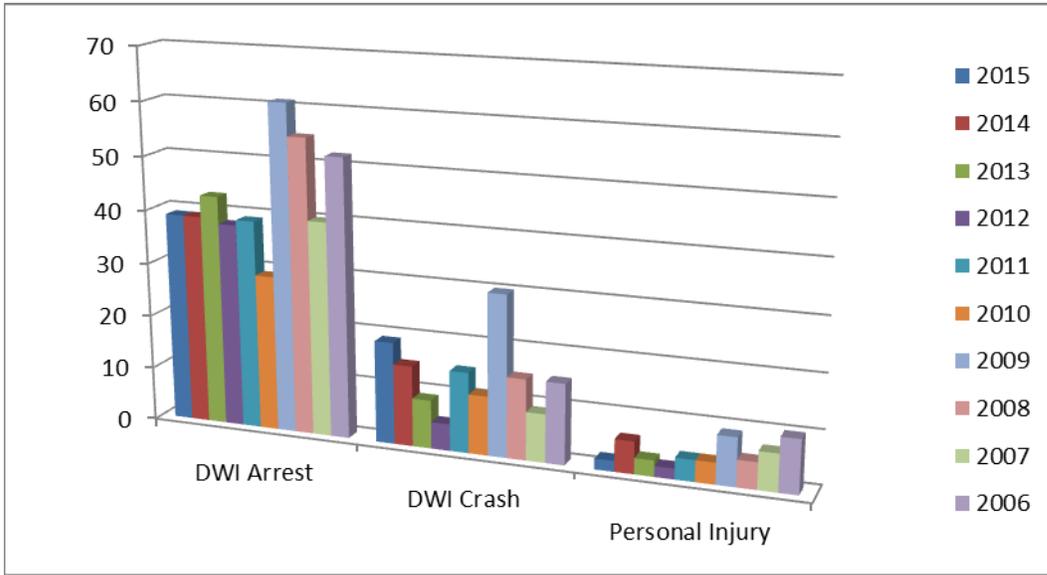

At the beginning of every calendar year the Traffic Safety Bureau gathers DWI statistical data for the Monmouth County DWI Strike Force. This data is necessary for the department to participate in conducting these checkpoints with the strike force. By utilizing this data, the Traffic Safety Bureau will determine where these checkpoints will be set up. These checkpoints are funded by Monmouth County and are supervised by the Monmouth County Prosecutor's Office.

Strike Force Checkpoint, conducted on July 31st, 2015, staffed by four officers from the department, and two officers from the Monmouth County Sheriff's Department. During this checkpoint nine summonses were issued, four drug arrests were made, and two DWI arrests was made.

DWI Statistics

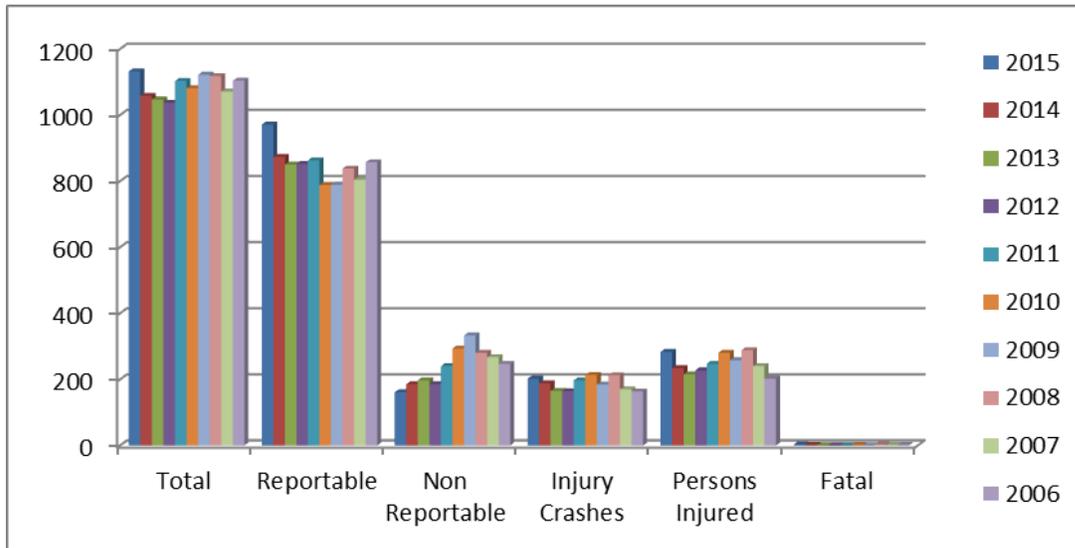

In 2015, the Eatontown Police Department saw a slight drop in the number of DWI arrests, however saw an increase in DWI related crashes and a drop in personal injury. In 2015, the department saw thirty eight (38) DWI arrests, nineteen (19) DWI related crashes, and two incidents involving personal injury. In 2014, we saw, thirty nine (39) DWI arrests, fifteen (15) DWI related crashes, and six incidents involving personal injury. Below is a comparison of the last ten years.

Ten Year	2015	2014	2013	2012	2011	2010	2009	2008	2007	2006
Comparison										
DWI Arrests	38	39	43	38	39	29	61	55	40	52
DWI Crash	19	15	9	5	15	11	30	15	9	15
Personal Injury	2	6	3	2	4	4	9	5	7	10

Motor Vehicle Crashes

In 2015, there was an increase in crashes within the borough by a total of seventy four (74). 2014 had a total of one thousand and fifty eight (1,058) crashes. 2015 had a total of one thousand one hundred and thirty two (1,132) crashes, with two fatal motor vehicle crashes. Below is a comparison of the last ten years.

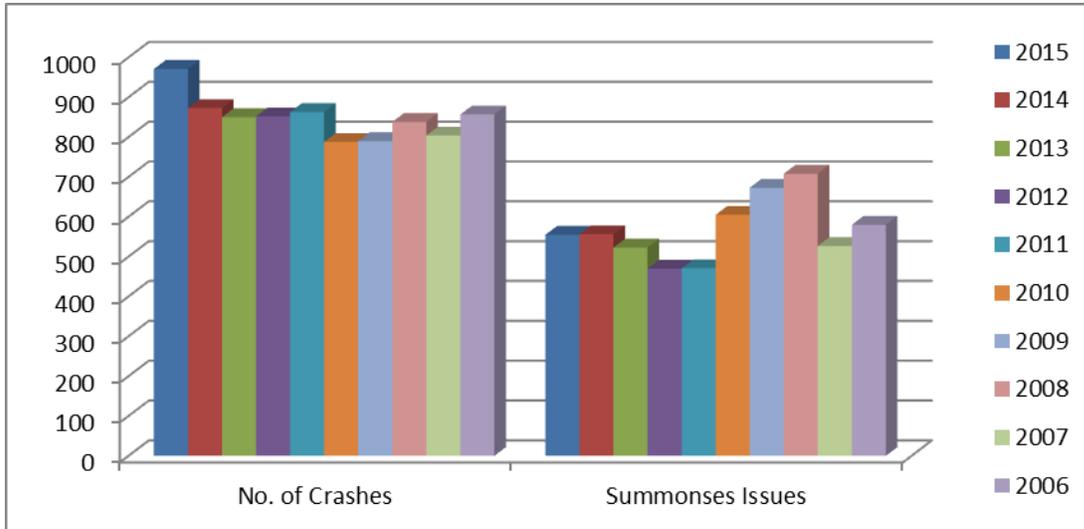

10 Year Comparison	2015	2014	2013	2012	2011	2010	2009	2008	2007	2006
Total	1,132	1,058	1,047	1,037	1,103	1,081	1,122	1,118	1,071	1,104
Reportable	971	873	850	852	863	788	789	838	804	857

Persons Injured	283	234	215	227	240	280	258	288	240	202
Fatal	2	1	0	0	0	1	0	3	1	1

Summons Activity vs. Reportable Crashes

Of the nine hundred and seventy one (971) reportable crashes within the Borough of Eatontown in 2015, five hundred and fifty five (555) summonses were issued. Below you will find a ten year comparison for this category.

Ten Year	2015	2014	2013	2012	2011	2010	2009	2008	2007	2006
Comparison										
No. of Crashes	971	873	850	852	863	788	790	838	804	857
Summonses Issued	555	556	523	470	471	605	673	708	527	580

Community Services Unit

PATROLMAN RYAN C. HENNELLY

The following detailed information covers all of the responsibilities and assignments of the Community Services Unit for the 2015 calendar year. Patrolman Ryan C. Hennelly continued to serve as the Community Services Officer for the Eatontown Police Department. The goal of the unit is to deliver superior service to the citizens of Eatontown by working in partnership with members of the community.

Eatontown Schools

The Community Services Unit maintains an active role in the Eatontown Public Schools. The Community Services Officer visits each of the Public Schools on a routine basis to assist with any potential problems as well as to forward information to the schools. This officer also made several requested appearances at the Yeshivat Keter Torah, the Harbor School and the Hawkswood School.

The Community Services Officer made several classroom appearances in 2015 and gave instruction on the following topics:

Bicycle Safety

Cyber Bullying Prevention

Halloween Safety

Pedestrian Safety

Bullying

Drug / Alcohol

Internet Safety

Shoplifting Prevention

Stranger Danger / Personal Safety

L.E.A.D. (Law Enforcement Against Drugs), In 2015, the Community Services Officer was the coordinator and instructor of the L.E.A.D. Program. Detective Aaron Shaw assisted with teaching lessons and the continued success of the L.E.A.D. Program. This program was taught to each of the sixth grade classes in all three of the borough's elementary schools in the 2015 school year. This program is designed to familiarize the students with current issues they face relating to drug and alcohol use. The students also received new supplemental lessons about the correct use and potential dangers of over the counter medicines and prescription drugs. At the end of the program, a graduation ceremony and barbeque is held at each of the elementary schools. During this event, the students are recognized for their achievements and commitment to make wise decisions about the use of drugs and alcohol. In September of 2015, The Community Services Officer was selected by L.E.A.D. to become a LEADer. For this position, this officer underwent training to teach police officer's throughout the country with the curriculum to equip their school districts with proven effective K-12 grade Drug Prevention and Violence Curricula. In October of 2015, The Community Services Officer was chosen by L.E.A.D. as the First Officer of the Month.

Officer Phil Safety Program The Officer Phil Safety Programs were presented to the Margaret L. Vetter, Meadowbrook and Woodmere Schools to grades kindergarten through fourth.

These programs utilized an educator/entertainer and Officer Hennelly to teach children about stranger danger, negative effects of bullying, internet safety and respect for authority figures. It also enforced positive behavior, honesty, friendship and being a buddy not a bully, just to name a few. This program is sponsored in partnership with the businesses in the community that donate to provide this valuable assembly to the public schools free of cost.

In addition to the programs listed above, the Community Services Officer was assigned to the following duties during the 2015 calendar year:

Accreditation- New Jersey State Association of Chiefs of Police (N.J.S.A.C.O.P.)- Under the direction of the Services Commander, Lieutenant Kenneth Kleinman and Services Sergeant Anthony Guido, the Community Services Officer continued to serve as the assistant accreditation manager. In 2015, the Community Services Officer continued this assignment by completing the files for review during the department's first successful re-accreditation.

Alarm Enforcement- The Community Services Officer is responsible for the education and enforcement of the borough's alarm ordinance. The Eatontown Police Department receives daily false alarm activations at both residential and commercial properties. These false activations tie up police resources and are addressed by personally speaking with the property's authorities to resolve any alarm system issues. If the issues are not resolved and repeated false alarm activations occur, summonses are issued for violation of the ordinance.

Apartment-Condominium-Town Home Associations- The Community Services Unit receives many calls from these associations about quality of life issues that are of concern by their members. The Community Services Officer addresses these concerns by answering questions and assisting with the development of solutions by working in partnership with the respective associations and residents collectively. At the request of these organizations, the community services officer made several scheduled appearances and presentations at the different association's meetings.

Child Passenger Safety- Proper child car seat installation is very important in ensuring the safety of child passengers in motor vehicles. The Community Services Officer is a Certified Child Passenger Car Seat Technician. In 2015, car seat inspections and instruction was given to many parents on the proper use and fit of their child's car seats.

Eatontown Drug Alliance Member – Summer Program for Eatontown Alliance Kids (S.P.E.A.K.) This cooperative program utilizes participation from teachers of the Eatontown Public Schools, students from the 6th and 7th grades and the Police Department. Together during the program, the students are given instruction on drugs and alcohol awareness, citizenship and

perform community service projects.

Alcohol Awareness Poster Contest- The Eatontown Drug Alliance organized an awareness campaign about the dangers of alcohol, underage drinking and social host liability. Public School Students in the 6th, 7th and 8th grades, created posters to educate the public for alcohol awareness month. The kick off event was held at the Monmouth Mall and the posters were displayed in a vacant store for the entire month of April.

Noise Enforcement- As a certified noise enforcement officer, the Community Services Officer utilizes a certified and calibrated quest technologies decibel meter. The Community Services Officer responds to many calls throughout the year where there are reports of residential or commercial noise complaints that are in violation of the borough's noise ordinance. If a violation is found then summonses may be issued.

Operation Medicine Take back

On Saturday September 26th, 2015 between 10:00 AM and 2:00 PM, The Eatontown Police Department hosted a medicine take back collection site for all unwanted and expired medicines. Residents were invited to drop off all of their unwanted medication to the

Eatontown Police Department, located at 47 Broad Street, Eatontown, NJ for proper disposal.

Kid Print Program- The Community Services Officer utilizes the Kid Print Digital Photo and Fingerprint Identification Card Making System. Through shared services with the Eatontown Office of Emergency Management, a new printer and software were purchased to assist with this important program. The Community Services Officer utilized this program at several events throughout 2015. At these events, a digital photo identification card is made for children with their pertinent information that includes the child's photo and fingerprint. The parents or guardians are given these cards to keep with them to assist in the unfortunate event that their child was to go missing. The identification cards would then be turned over to the police to assist in finding the child quickly. The Community Services Unit also continued to provide all of the public school personnel with photo identification badges this year as part of the "New Jersey Domestic Security Task Force." The school staff members are required to wear these badges at all times to make the employees easily identifiable in case of an emergency. The Community Services Officer also creates the identification cards for all of the boroughs employees, including Fire Department, First Aid Squad and OEM Personnel.

Project ChildSafe- Project ChildSafe is a nationwide program that promotes safe firearms handling and storage practices among all firearm owners through the distribution of safety education messages and free firearm safety kits. The kits include a cable-style gun-locking device and a brochure that discusses safe handling and storage. Since 2003, Project ChildSafe has partnered with local law enforcement agencies to distribute more than 36 million safety kits to gun owners in all 50 states and five U.S. territories. To date, the Eatontown Police Department has assisted with the distribution of over 100 ChildSafe Kits.

Police Department Tours- The Eatontown Police Department receives many requests for tours of our facility by many different organizations. The Community Services Officer is responsible for conducting the tours of our facility and explaining the tools that are utilized to help serve and protect our citizens.

Residential and Business Security Survey's- The Community Services Unit is available by appointment to provide an assessment of residential and business properties for the purpose of educating owners on how to make their properties less of a target for criminal activity.

Wireless at Work- This program utilizes used or unwanted cell phones that can be distributed to citizens who do not have a device capable of calling 9-1-1 in an emergency.

In 2015, the Community Services Officer was assigned to supplement the patrol division with answering calls for service and was assigned to the courtroom security detail weekly. This officer also assisted the services division by filling in for the records bureau as needed. The Community Services Unit made positive steps in bringing the Borough of Eatontown schools, police and the community together. The various other programs offered have enjoyed continued success and are valued by the community we serve.

Eatontown Police Benevolent Association (P.B.A.) Local # 305 was formed in 1982. It is comprised of both current and retired members of the Eatontown Police Department. While the Eatontown P.B.A. is the bargaining unit for the Eatontown Police Officers, the majority of the P.B.A.'s time is spent on helping those within the Eatontown community.

Through fund raising efforts, the P.B.A. is able to make donations to our community through various organizations. The P.B.A. sponsors the "Blue Jays" Little League baseball team through the Eatontown Baseball League. We also are sponsors for the annual Eatontown 5-K Labor Day Race and the Eatontown Youth Fishing Derby ran by the Eatontown Recreation and Community Services.

The P.B.A. also donates money and the services of its membership to the Law Enforcement Against Drugs (L.E.A.D.) programs. Although the L.E.A.D. program is run through the police department, the P.B.A. donates money towards L.E.A.D. graduate awards for each of the three (3) elementary schools as well as assisting at each of the L.E.A.D. graduations barbecues.

The Eatontown P.B.A. also has a scholarship fund, the Mahoney Scholarship, named after one of our founding members, the late John "Jay" Mahoney. Any Eatontown Resident who is graduating from Monmouth Regional High School with aspirations of pursuing a career in law enforcement is eligible to be awarded the scholarship.

The P.B.A. also connects with our community of senior citizens at The Meadowbrook Community located at 55 Wyckoff Road. One of the most joyful events the P.B.A. holds each year is the Christmas Holiday Party which includes food and entertainment. This year all Eatontown senior residents were invited to attend the party through the outreach services of the Eatontown Community Center. It is a great day enjoyed by all of the senior residents and the P.B.A. Members.

New to the P.B.A. this year was a fund raising basketball game against members of the Mt. Zion A.M.E. Church at Wolcott Park. The fund drive was to aid Mt. Zion in their restoration of the stained glass windows in the historic church.

The member of the P.B.A. along with the staff of the Harbor School Eatontown held a Carnival Day for student at the schools. The kids had a great time getting some member very wet in the dunk tank, and all enjoyed the food provided and cooked by the P.B.A.

The P.B.A. also provides donations to many national and regional charitable organizations such as St Judes children Hospital , Monmouth County Police Unity Tour, as well as to families of sick and fallen officers throughout New Jersey. The members also participate in the nations annual "NJ Law Enforcement Torch Run".

These are just a few of the many things that Eatontown P.B.A. Local # 305 does on a yearly basis. The satisfaction our members get from helping those in our community does not end when we take off our uniforms at the end of our shifts. The need to help those in the community continues even when a member of the P.B.A. retires. Each and every one of our members has established life-long bonds to the community. To learn more about the P.B.A. activities and charities, contact any of our members. We look forward to seeing you in the coming year! Let's make 2016 even better year for our community!

Matthew Williams, President-
Eatontown P.B.A. Local # 305
